

Investment Policy Statements (IPS)

We develop Investment Policy Statements that define a scheme's investment objectives, governance framework and long-term investment strategy.

Data Reconciliation & Actuarial Reviews

For defined contribution schemes, we review and reconcile member data to help ensure accurate contribution records, correct allocation of investment returns, and reliable member balances.

Asset Consulting

We support Trustees in monitoring investment performance through benchmark performance analysis, independent return verification, attribution analysis, alternative investment research, and cashflow and liquidity projections

Actuarial Valuations

We conduct actuarial valuations for defined benefit schemes to assess funding adequacy, scheme liabilities, and long-term financial sustainability.

Gratuity Valuations

We provide gratuity liability valuations in line with IAS 19 requirements, helping organizations accurately reflect employee benefit obligations in their financial statements.

Performance Investment Management Survey (PIMS)

Our quarterly PIMS reports provide insights into pension scheme investment performance, local and global market positioning, and industry trends and comparative analysis

WHY PARTNER WITH MINET?

- Qualified and experienced actuarial specialists
- Strong retirement benefits expertise
- Independent and data-driven analysis
- Insightful investment and funding guidance
- Solutions aligned to regulatory and governance requirements
